

Below are a list of general guidelines that will help make the installation process as seamless as possible.

Irrigation: Please turn off irrigation two days prior to installation and for the duration of the project. All irrigation heads and lines need to be marked by the irrigation company prior to Landscape by Design starting. If any of the irrigation needs to be adjusted due to the proposed landscape beds, the heads need to be removed and irrigation lines need to be moved out of the proposed area. Once the landscaping is complete the irrigation company came come back in and reinstall the heads that needed to be moved.

Private Lines: Please locate any private lines you may have. This includes, but is not limited to gas / private electrical to grill, fire pit, lp tanks, etc. Any private internet or cable lines. Please mark any tile or catch basins.

Pet Waste: Please remove any pet waste that will be in the area the crew will be working in or passing through prior to and for the duration of the project.
